

# LOSS ADJUSTING Natural Resources

## YOUR TRUSTED PARTNER

Charles Taylor provides specialized loss adjusting services for the energy & natural resources sector, delivering expert assessment and resolution for complex claims. With extensive experience in large-scale losses, we support insurers, reinsurers, brokers, and corporations with tailored solutions that ensure accuracy, efficiency, and fair outcomes.

### FEATURES

- Experienced adjusters with specialized industry knowledge.
- Flexible approaches to meet the unique needs of each claim.
- Nationwide presence with local market insights.
- 24/7 availability for fast and effective claim solutions.

### BENEFITS

- Accurate claim outcomes backed by industry expertise.
- Efficient claims handling to minimize delays and downtime.
- Clear communication to keep all stakeholders informed.
- Increased satisfaction through seamless claims experiences.

## INDUSTRIES

### GREEN ENERGY

**Renewable Energy:** Expertise in onshore and offshore wind, solar, battery storage, tidal and wave, geothermal, hydroelectric, and biomass projects.

**Low Carbon & Energy Transition:** Support for hydrogen production, carbon capture and storage, and electrification cable interconnectors.

### UPSTREAM ENERGY

**Offshore Hydrocarbon Exploration & Production:** Claims for offshore construction, control of well and operator's extra expenses operational equipment, subsea infrastructure and technology, and yard construction.

**Hydrocarbon Transportation:** Experience with gas-to-liquid and liquid-to-gas processing.

### ONSHORE ENERGY & MINING

**Onshore Hydrocarbon Processing:** Claims for gas-to-liquids, refining, and petrochemical operations.

**Power Generation:** Specialized in gas, coal, nuclear, and renewable energy power generation facilities.

**Mining:** Expertise in all mineral and metal types, including underground and open-cut mining operations, and materials handling systems.
