

LOSS ADJUSTING

Product Recall

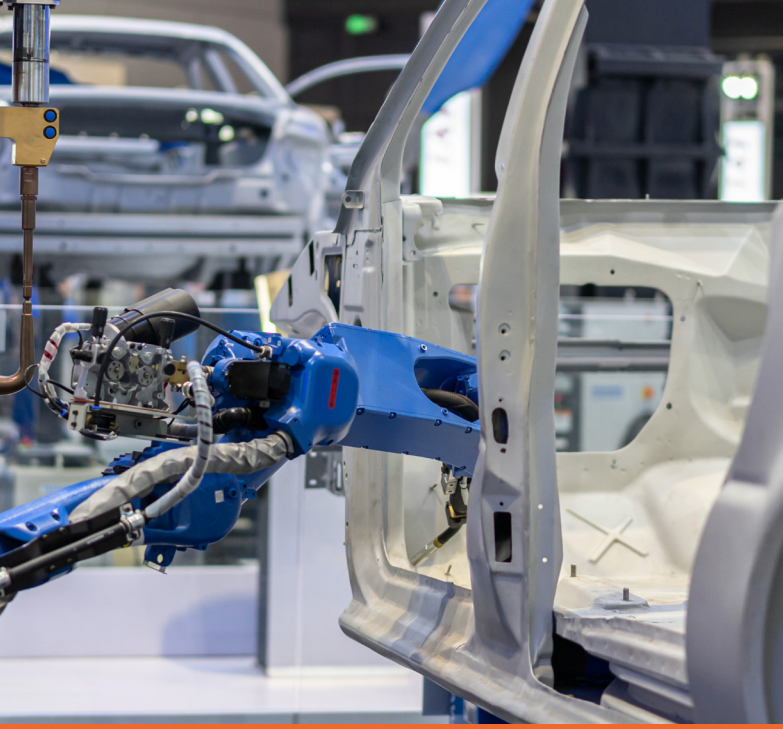

YOUR TRUSTED PARTNER

Charles Taylor provides investigation and adjusting solutions for product recall and complex products liability claims, delivering rapid response, analysis, and resolution for recall incidents and events. Our multi-disciplinary team offers comprehensive loss evaluation, recall procedure and population assessment, liability analysis, and financial recovery services. With continent-wide coverage across the Americas and industry insights, we help underwriters and reinsurers manage recall claims efficiently to minimize financial losses and damage.

FEATURES

- Experienced team of loss adjusters, forensic accountants, and engineers with specialized industry knowledge.
- End-to-end support throughout the entire claim lifecycle, including coverage analysis when required.
- Continent-wide presence with local market insights.
- Streamlined processes to respond quickly and effectively to recall losses.
- Comprehensive third-party recovery investigation to offset recall-related costs.

BENEFITS

- Accurate recall claim assessments backed by industry knowledge.
- Efficient crisis management loss investigation to minimize financial impact.
- Clear communication to keep underwriters, reinsurers, and other parties informed.
- Increased satisfaction through seamless recall loss management and efficient resolution.
- Optimized cost recovery through structured third-party pursuit and financial assessment.

INDUSTRIES

Food & Beverage
